Dear Sir:

Applicants reviewed the Examiner's Statement of Reasons for Allowance which accompanied the December 20, 2004 Notices of Allowance and Allowability regarding the above-identified application.

The Examiner's Statement seemingly paraphrases, and thus does not exactly reflect, the language of the allowed claims. Moreover, only a small portion of the language of some claims is paraphrased.

Entry of the Statement into the record should not be construed as any agreement with or acquiescence by applicants in the reasoning stated by the Examiner. Each of the claims stands on its own merits and is patentable because of the combination it recites and not because of the presence or absence of any one particular element.
